Yes, if possible. It will make the discussion easier if we are working off of maps.

I sent a message to John asking who was invited but no response has come yet.

I really hope that we have these by the time the DNR/EPA/tribe meeting occurs the week of the 19th. I responded to the Doodle but I don't know if I can attend in person. I think I might call into the meeting. Were you planning to go in person?

Is there something we should do to check on the CRL analytical results?

I agree. For some reason, Kristen thinks it's important to have on the record, I suppose.

I've never quite understood their view of exerting authority as a condition of meeting about the site.

I don't see the connection between our letter to the Kozaks and the meeting. Do you?

Kristen,

Our attorney, Erik Olson, is working on a letter which we hope to send soon.

My understanding of the upcoming meeting with WDNR is to discuss locations for monitoring well placement, and I hope also to discuss soil results from the recent sampling. Our own data is not yet back from the lab but should be by the proposed week for the meeting (10/19).

Bob

Good Morning Bob,

When we last spoke you were working on Larry's message to Margaret regarding EPA correspondence to the Kozak's. Has any correspondence occurred? It is difficult to respond to this vague state meeting without EPA's role asserted to the responsible party.

I don't know anything other than what the notice said. I just got it this morning (from last night) and also saw that Judy was the only participant so far. Unfortunately it does not list the recipients of the notice so we can't see who has been invited.

Good Morning Bob,

The doodle poll shows 1 participant, Judy Fassbender WDNR. What do you know about this meeting and whom are the participants?

John Robinson invites you to participate in the Doodle poll "Meeting on Groundwater Monitoring at Tower Standard Site."

Hi there,

John Robinson (John.Robinson@wisconsin.gov) invites you to participate in the Doodle poll "Meeting on Groundwater Monitoring at Tower Standard Site."

I am trying to set up a meeting to discuss the proposed locations and depths of the groundwater monitoring wells that will be installed as part of the investigation of the Tower Standard Site. Please let me know which of the dates work for you. We will finalize an agenda and location prior to the meeting. Please let me know if you have any questions.

Participate now
